

THE “FINANCE AREA” CUSTOMERS’ ANNUAL ENCOUNTER MET WITH GREAT SUCCESS

The meeting with CAD IT’s Finance Area customers, held on Thursday, 22nd March 2012 in Verona, was a great success.

This event has always provided an opportunity for finance IT and banking institution professionals to meet.

The direct testimony of a leading Italian Banking Group describing its hand-on user experience with Finance Area WEB 2.0 aroused a good deal of curiosity and considerable interest among the other participants.

This year also saw the first intervention by a leading German financial institution, which outlined the success it is having by implementing the EasyMatch reconciliation module, part of the Finance Area suite, in Germany.

A number of technological innovations, such as multi-channelling and the system’s availability in multiplatform, were also presented.

The meeting included a discussion on the mutual actions to adopt in order to face challenging developments in the law, such as FATCA and Target 2 Securities (TS2).

In additional explicitly dedicated sessions, the customers were able to preview the new 2012 models and Finance Area’s developmental roadmap where CAD IT presented the following solutions:

- New Fund Allocation;
- Reconciliations;
- Branch (Front end) consultancy;
- Reporting and multi-channelling;
- Corporate Actions Suite;
- New financial products: deposit certificates, gold bars and coins, liquid accounts, accumulation plans and mixed packages;
- Property portfolio analysis.

CAD IT would like to thank all those who participated in the event: a network of experts from over 400 financial institutions and more than 100,000 users in Europe who, together, put forward their ideas in favour of a constantly evolving platform.
